Our Services

The residential and commercial areas our products can be used in is only limited by your imagination – choose between coloured, graphic, or patterned on feature walls, splashbacks, mirrors, showers, wall art and insulated glass.

Graphic Glass' expert project managers, fabricators and talented designers, ensure your project is on time and on budget. Our complete service includes: Project Management, Design, Production, and Installation.

Coloured/ Painted Glass

Our unique painting system allows you to choose any colour ensuring your kitchen splashbacks or shower walls are customised to your space.

Back painted glass is not only modern but stands the test of time as it's easy to keep clean.

Mirrors

Not only a functional part of life, mirrors can also create the illusion of a larger space.

Our mirrors are all custom made rather than being limited to standard sizes.

Showers

Frameless glass showers are sleek and modern, as well as customised to suit your space and needs with different options available.

Printed Splashbacks

Graphic Glass allows you to print any photographic or design artwork directly onto glass. We can even customise the print to your own specific design if you have something in mind. Bring in colour, texture, shimmer, pattern, style and personality to your kitchen, pantry, or laundry.

Art On Glass

We work with artists and photographers to create unique and inspiring works of art for your home, or personalise your space with a favourite shot of your own!

FAQ

What colours are available?

Graphic Glass offers a comprehensive range of over 700 colours, including flat opaque, metallic, pearls and sparkle finishes. We also offer a colour matching service.

What type of glass is used?

The Graphic Glass coating system can be applied to virtually any type of glass. For wall lining applications such as splashbacks, we use 5mm low iron glass (annealed or toughened) this allows us to get the best accuracy with colour.

How do I obtain an estimate?

Due to the complexity of pricing with so many variables, the best solution is to simply email our office with a sketch showing dimensions and special requirements such as edgework, power-points and installation etc and we will return a firm estimate to you.

Timing?

Once we have completed a site measure and are in receipt of your deposit, it will be up to 10 working days for our fabricators to produce your order, ready for collection/ installation. Timing may vary subject to the chosen finish and installation. Our Project Directors will discuss and confirm timing with you.

Can samples be viewed?

Yes, visit our showroom or contact our offices and request a colour of choice from a popular fan deck and we will dispatch a suitable colour as soon as possible. If you prefer to stop in at the Home Ideas Centre on The Strand, Parnell, you will also find our most popular standard colours available.

Colour matching and sign-off?

If you have a specific colour or image in mind we will produce a test match on a glass sample. We provide one free sample per order. It is helpful if when supplying wall colours to match, you quote from the standard Resene or Dulux charts.

Warranty?

Yes, we offer a 10-year warranty against the coatings delaminating from the glass.

Photographic Print

With Graphic Glass you can create durable, easy-clean spaces that look like a work of art. We can print any pattern or image onto the back of toughened, heat-resistant glass.

Hire a photographer, work with a designer, use your digital photos or choose from vast online libraries - the choice is yours. And if you have a favourite fabric, painting or wallpaper, we can scan it and recreate an image you'll love for years to come.

When you buy Graphic Glass printed splashback, we can give you a visual mock-up that lets you see your image in place before we print your glass. From measure and make to final installation, we're with you every step of the way.
